3. FOREWORD BY THE MINISTER

**GENERAL BH CELE, MP
MINISTER OF POLICE**

Although 2022/23 came with the relief of officially finding ourselves on the other side of a gruelling pandemic, we have also come to acknowledge the reality that the era of poly-crises, both in the country and in the world, is what will now define our existence for generations to come. It is this reality that underpinned the sentiments expressed by the President in the 2022 State of the Nation Address, when he asserted that “there are moments in the life of a nation when old certainties are unsettled and new possibilities emerge. In these moments, there is both the prospect of great progress and the risk of reversal”. He rightly emphasised the need for a new consensus that would be borne out of a common understanding of our current challenges and the recognition of the urgency required to address these challenges. The underlying paradox, irrespective of the nature of any crisis, is that the inability to adequately contain its impact from a socio-economic perspective by other stakeholders inevitably translates into a safety and security problem in one way or another. As we ponder upon the implications of it all, as a State and as a sector, we remain sober to the immutable fact that safety and security is and will continue to be an apex priority in this regard.

The above notwithstanding; the Civilian Secretariat for Police Service (CSPS) has, in the past year, made some notable strides in actualising my directive to ensure tangible change in as far as building safer communities is concerned. The 2022/23 financial year marked the first year of implementing the CSPS’ emergent theory of change, which seeks to facilitate greater alignment of the departmental strategic orientation to the objectives of the National Development Plan (NDP), the revised 2019-2024 Medium-Term Strategic Framework (MTSF), and other priorities of government. The focus was also on the institutionalisation of and advocacy towards the implementation of the Cabinet-approved Integrated Crime and Violence Strategy (ICVPS) by all spheres of government.

During the period under review, the Department conducted a joint research project with Provincial Secretariats in order to determine the extent to which provincial safety strategies are aligned to the key provisions of the ICVPS. The analysis was undertaken with the intention of ensuring that all provinces are equipped with the relevant policy instruments that will enable full implementation of the integrated approach to safety, crime and violence prevention towards a safer South Africa. The CSPS also continued to engage and collaborate with civil society organisations for this purpose. The impact of these processes is evident, as we have begun to see several provinces enhancing their efforts in terms of allocating more resources towards community safety than had previously been the case.

In addition, the National Policing Policy (NPP) developed by the CSPS also aims to supplement interventions that seek to respond to the current policing, crime and violence challenges in the country and advance the transformation of the South African Police Service (SAPS), towards the realisation of the NDP vision. The reporting period saw the continuation of broad consultations with key stakeholders on the NPP; a process which has also prompted SAPS to give thorough consideration to the current philosophy and doctrine underpinning its policing approaches with a view to becoming more adept to an ever-changing democratic policing landscape.

The theory of change requires that constitutionally compliant legislation be developed to contribute to a transformed and accountable police service. An appropriate regulatory environment is a prerequisite in order for the police to execute their constitutional mandate, and for effective oversight to be maintained. It is against this backdrop that the CSPS continues to work tirelessly to support me – and by extension, the Justice, Crime Prevention and Security (JCPS) cluster - in the formulation, analysis and review of relevant enabling legislation. During the reporting period, the Criminal Law (Forensic Procedures) Amendment Bill and the Protection of Constitutional Democracy Against Terrorist and Related Activities (POCDATARA) Amendment Bill were assented to and signed by the President, both of which contribute significantly to the achievement of the priorities of the JCPS cluster. A significant amount of work also went into the Independent Police Investigative Directorate (IPID) Amendment Bill; the Second Hand Goods Amendment Bill; and the Critical Infrastructure Protection Interim Regulations, amongst others. By the end of the period under review, the IPID Amendment Bill was at an advanced stage, and it is envisaged that it will be introduced into Parliament in the new financial year.

Given that I had directed the CSPS to develop mechanisms of maintaining a clear view of what is happening at police station level where active policing and community interface takes place, the 2022/23 financial year saw a significant increase in terms of my requirements from a monitoring and evaluation, and public participation perspective. Over and above the regulatory assessments and oversight initiatives conducted, the Department provided additional support to my oversight visits and community outreach programmes, including the development of a tool to assess station-level accountability, and response plans that enabled me to give adequate feedback to communities regarding issues they raised on crime prevention. The CSPS also conducted a pilot of the national monitoring and domestic violence assessment tool at 34 police stations, in preparation for the 2023/24 Police Station Census Project. I am particularly proud of this initiative, as the outcomes thereof will provide crucial information to enable the development of appropriate recommendations and targeted interventions to improve policing at station level.

Lastly, I congratulate the CSPS on the attainment of yet another clean audit for the 2022/23 financial year, under the leadership of the Acting Secretary for Police Service and the dedication of his team. With the view that we are now working towards the final years of delivery of the current administration, I would like to encourage the Department to continue on the trajectory of high performance and commitment to facilitating integration, coordination and collaboration in the sector. The focus should also remain on advancing transformation and professionalisation of the police to ensure the creation of a functional ecosystem in the pursuit of safer communities.

GENERAL BH CELE, MP
MINISTER OF POLICE

4. REPORT OF THE ACCOUNTING OFFICER

**MR TL RAMARU
ACTING SECRETARY FOR
POLICE SERVICE**

OVERVIEW OF THE OPERATIONS OF THE DEPARTMENT

It gives me great pleasure to present the 2022/23 Annual Report, which reflects on the status of the administration of the Civilian Secretariat for Police Service (CSPS), with specific emphasis on its financial management and performance on predetermined objectives. The report also provides an account of our enhanced exertions towards maintaining the highest standards of governance in the management of public finances and resources. The period under review was relatively stable, with no major external interruptions on service delivery performance. As such, we continued to direct our focus firmly on the execution of our mandate, including the development of evidence-based policies for effective policing and crime prevention; the establishment of strategic partnerships to ensure the involvement of communities and other key role-players in crime prevention efforts; the provision of evidence-based research for informed decision-making; and the provision of platforms for communication and dialogue on policing and safety.

Our collective efforts have led us to maintain a clean administration through the achievement of an unqualified audit outcome with no findings, which has been the position for the past three financial years. We also managed to deliver on 89% of our annual predetermined objectives which - although was 3% less than the previous financial year - did not have a negative implication on the audit outcome.

For the Department to achieve and maintain this level of performance, meticulous attention is required in terms of strengthening our organisational environment. A key feature in this regard is the continued implementation of the Integrated Human Capital Strategy, which focuses on improving human resource management and development, and ensuring that our capacity matches our delivery requirements. With the implementation of the Strategy, the Department achieved its target of maintaining a vacancy rate of 7%, having filled 146 of its 157 post establishment by the end of the reporting period. The Department also remained compliant with the legislated employment equity targets, having exceeded the 50% target of the number of female appointments in the senior management echelon; the 2% target of persons employed with disabilities, and at least 30% of the staff complement comprising of youth.

The process of relocating the Department to our new office accommodation was also finalised during this period, although this process initially presented several challenges relating to the accessibility to Information and Communication Technology (ICT) systems. In spite of these teething problems, the Department implemented 100% of its planned activities as per the approved ICT Strategy, the aim of which was to improve ICT operational efficiencies, in line with the requirements of the new office accommodation.

In terms of our strategic orientation, delivery on our predetermined objectives was primarily guided by both the direction provided by the Minister at the beginning of the planning cycle and our emergent theory of change, which enabled us to align

our performance measures to the outcomes articulated in our revised five-year strategy. Given that our interaction with the public was no longer inhibited by strict lockdown restrictions, we continued with engagements for the purpose of entering into partnership agreements that would broaden our reach in communities. In the 2022/23 financial year, we also assessed the status of implementation of existing agreements in order to determine the impact thereof on the ground. The focus was also on the development of response plans to create a feedback loop between the Minister and communities on issues raised during the public participation programmes.

In advancing the aim of strengthening community participation, the Department conducted Izimbizo and anti-crime campaigns in almost all provinces, in line with Minister's public participation programme. During the reporting period, the Department conducted 13 capacity-building workshops on crime prevention policies in several provinces, exceeding the planned target of 9 workshops. The Department also facilitated 13 CSF workshops in municipalities across the country, inclusive of workshops with community safety portfolio councillors in Mpumalanga, Western Cape, Northern Cape and Gauteng. The exceeding of our planned targets on these key programmes was demonstrative of the progressively high demand for the Department's services by provinces, municipalities and other stakeholders during the course of 2023/24.

The reporting period also saw us pay closer attention to the Minister's call for the CSPS to utilise evidence-based research to benchmark towards improving policing and safety approaches. In addition to the joint research project we conducted with Provincial Secretariats to determine the alignment of the provincial safety strategies with the 2016 White Paper on Safety and Security (WPSS) and the ICVPS, we also conducted research on the analysis of murder case dockets, towards attaining the objectives of the ICVPS. The 2023/24 financial year was also dedicated to the development of a centre of excellence concept for the CSPS, in line with our knowledge management strategy and framework.

Developing legislation to support and enhance policing remains at the core of our strategy, and during the financial year, two of our priority bills were signed into law by the President and published in the Gazette. Significant advancements were also made in terms of the IPID Amendment Bill, Second Hand Goods Amendment (SHGA) Bill, and Stock-Theft Amendment Bill, amongst others.

In terms of oversight monitoring and evaluation, we conducted an evaluation of the implementation of the Second-Hand Goods Act of 2009 to assess whether the Act is being implemented as intended. The findings of this evaluation will be utilised to further inform the aforementioned amendments in the SHGA Bill. The assessments we conducted on the functioning of the National Forensic DNA Database revealed a significant decline in the DNA analysis backlog; increasing the likelihood that fewer cases will be withdrawn in court due to the unavailability of DNA results. This will translate into significant gains in terms of the priorities of the JCPS cluster.

OVERVIEW OF THE FINANCIAL RESULTS OF THE DEPARTMENT:

Departmental receipts

Departmental Receipts	2022/2023			2021/2022		
	Estimate	Actual Amount Collected	(Over) / Under Collection	Estimate	Actual Amount Collected	(Over) / Under Collection
	R'000	R'000	R'000	R'000	R'000	R'000
Sale of goods and services other than capital assets	75	75	-	77	76	1
Sales of capital assets	-	162	(162)	85	85	-
Financial transactions in assets and liabilities	-	1	(1)	73	4	69
Total	75	238	(163)	235	165	70

The CSPS is not a revenue collecting or generating department, as it does not deliver a direct revenue-based service to the public. Most of the revenue collected relates to internal processes and services. A total amount of R238 000 in revenue was collected in the 2022/23 financial year. This is an increase of R73 000 against the 2021/22 revenue of R165 000. The over-collection of R163 000 was mainly due to revenue from the sale of capital assets.

Programme Name	2022/2023			2021/2022		
	Final Appropriation	Actual Expenditure	(Over) / Under Expenditure	Final Appropriation	Actual Expenditure	(Over) / Under Expenditure
	R'000	R'000	R'000	R'000	R'000	R'000

Total	155 920	152 641	3 279	151 043	138 407	12 636

The Department spent R152,641 million or 97.9% of its final appropriation of R155,920 million in the 2022/23 financial year. This is a 6.3% increase against the 91.6% spending in the 2021/22 financial year. The bulk of the underspending on all programmes is attributed to vacant posts, and an amount of R2,997 million on Compensation of Employees represents 91.4% of the total underspending of R3,279 million. The main vacancy which could not be filled during the financial year is that of the Secretary for Police Service. The Department also underspent with only R22 000 on goods and services, as well as R231 000 spent on payments for capital assets which - with the R29 000 on transfers and subsidies - represents 8.6% of the total budget.

5. STATEMENT OF RESPONSIBILITY AND CONFIRMATION OF ACCURACY FOR THE ANNUAL REPORT

To the best of my knowledge and belief, I confirm the following:

- All information and amounts disclosed throughout the annual report are consistent.
- The annual report is complete, accurate and is free from any omissions.
- The annual report has been prepared in accordance with the guidelines on the annual report as issued by National Treasury.
- The Annual Financial Statements (Part F) have been prepared in accordance with the modified cash standard and the relevant frameworks and guidelines issued by the National Treasury.
- The Accounting Officer is responsible for the preparation of the annual financial statements and for the judgements made in this information.
- The Accounting Officer is responsible for establishing and implementing a system of internal control that has been designed to provide reasonable assurance as to the integrity and reliability of the performance information, the human resources information and the annual financial statements.
- The external auditors are engaged to express an independent opinion on the annual financial statements.

In my opinion, the annual report fairly reflects the operations, the performance information, the human resources information and the financial affairs of the department for the financial year ended 31 March 2023.

Yours faithfully

MR TL RAMARU
ACTING SECRETARY FOR POLICE SERVICE
Date: 28/08/2023

6. STRATEGIC OVERVIEW

6.1 Vision

A transformed and accountable Police Service that reflects the democratic values and principles of the Constitution of the Republic of South Africa.

PART B:

PERFORMANCE INFORMATION

1. AUDITOR GENERAL'S REPORT: PREDETERMINED OBJECTIVES

For the period under consideration, the Auditor-General of South Africa (AGSA) provided reasonable assurance on the usefulness and reliability of the reported performance information against the predetermined objectives for Programmes 2, 3 and 4. The audit outcomes indicate that the AGSA did not identify any material findings for any of the audited Programmes.

For details regarding the audit outcomes on the performance against the predetermined objectives, refer to page 84 of the AGSA Report under Part F: Financial Information.

2. OVERVIEW OF DEPARTMENTAL PERFORMANCE

2.1. Service Delivery Environment

The year under review was indeed a period of stabilisation and recovery, as envisaged and outlined by the Minister in the 2022/23 Annual Performance Plan. It was during this year that restrictions on economic and social activities were lifted and most state institutions reverted back to 100% in-person operational capacity, subsequent to the confirmation that COVID-19 was no longer deemed a pandemic. This implied that the service delivery environment within which the Department operates had largely returned to 'normalcy'. The aftermath of the crisis also resulted in a general increase in the demand for the services provided by the Department, given that the interface with communities and stakeholders was now unrestricted. This increased demand also included a more hands-on approach in terms of the strategic support provided to the Minister of Police in the execution of his oversight mandate.

At the commencement of the reporting period, the Department embarked on the relocation to its office accommodation. The move came with its own unique set of opportunities and challenges, including the lack of telephone lines and interruptions in terms of accessibility to Information and Communication Technology (ICT) systems. In spite of some of the teething problems associated with the relocation; the Department managed to achieve twenty-five (25) out of its twenty-eight (28) predetermined objectives, translating into an annual performance score of 89%.

In terms of the services which the Department delivers directly to the public, the following achievements can be noted:

CSF Facilitation Workshops

Community Safety Forums (CSFs) remain one of the key safety structures in communities that coordinate safety initiatives at a local level and promote development through access to high quality services in municipalities by way of collaboration with other State institutions. The core mandate of CSFs is to facilitate community participation in safety, crime and violence interventions, as envisaged in the CSF Policy. In contribution to the promotion of safer communities during the period under review, the Department facilitated thirteen (13) CSF workshops in municipalities across the country, inclusive of workshops with community safety portfolio councilors in Mpumalanga, Western Cape, Northern Cape and Gauteng.

Capacity-Building Workshops on Crime Prevention Policies

The Department continues to focus on structured community interaction in the pursuit of enhanced community involvement and participation in safety programmes. This approach includes conducting capacity-building workshops to create awareness on existing Justice, Crime Prevention and Safety (JCPS) cluster policies, services and available knowledge products in order to encourage coordination, collaboration and implementation of these instruments in addressing crime and criminality at grassroots level. During the reporting period, the Department conducted thirteen (13) capacity-building workshops on crime prevention policies, yet again exceeding the planned target of nine (9) workshops. This was demonstrative of the high demand for the Department's services by provinces, municipalities and other stakeholders during the course of the year.

Anti-Crime Campaigns, Izimbizo, and Public Participation Programmes

The Department conducts anti-crime campaigns in collaboration with public-private partners on the basis of agreed-upon initiatives through signed working agreements. The campaigns are focused on social crime prevention initiatives on burning issues such as responsible alcohol trade and use, gender-based violence (GBV), school and campus safety, and the protection of vulnerable groups. During the 2022/23 financial year, four (4) anti-crime campaigns took place in response to the rise in reported GBV and gang-related cases.

The Izimbizo and public participation programmes facilitated by the Department provide a platform for dialogue on crime prevention initiatives between communities and the Minister of Police. The high crime levels, including the scourge of GBV and violence against children, necessitated the conducting of additional Izimbizo during the period under review. In relation to the planned target of eight (8) Izimbizo, a total of seventeen (17) took place, as part of the Ministerial public participation programme. The Department also developed response plans as a mechanism to provide feedback on matters raised by communities during their engagements with the Minister.

2.2. Service Delivery Improvement Plan

During the period under review, the Department continued to comply with the reporting requirements set by the Department of Public Service and Administration (DPSA) in terms of its approved Operations Management Framework (OMF). The Department does not, however, have adequate capacity to develop a comprehensive Service Delivery Improvement Plan (SDIP) at this stage. Provision for the requisite capacity will be made in the revised organisational structure, and the implementation of the structure at a micro-level will be dependent on the availability of funds, once the necessary concurrence and approvals have been obtained.

2.3. Organisational Environment

At the end of the period under review, the Department had filled 146 of its 157 post establishment, resulting in a vacancy rate of 7%. There are three (3) people with disabilities employed in the Department, which translates into 2,10% of the staff complement. This implies that the Department remained compliant with the 2% equity target for employment of persons with disabilities, during the reporting period.

Figure 3: Vacancy Rate

Out of the 146 positions filled, 81 are females, translating into 55% of the staff complement; while 65 are males, or 45% of the staff complement. In terms of gender parity at the Senior Management Service (SMS) level, of the 27 SMS members, 16 (59% of the staff complement) are females and 11 (41% of the staff complement) are males. This implies that the Department remained compliant with the national target of 50% female representation at SMS level.

Figure 4: Employment Equity

The number of youth employed in the Department consists of 28 females and 25 males, inclusive of 10 Work Integrated Learners (WIL). The Department therefore remains compliant with the obligation to ensure that at least 30% of its staff complement comprises of young people (employees below the age of 35).

2.4 Key Policy Developments and Legislative Changes

In the 2022/23 financial year, the Criminal Law (Forensic Procedures) Amendment Bill was assented to and signed by the President in December 2022. A signed Proclamation was published in the Gazette on 24 February 2023, which outlined 3 March 2023 as the date of commencement of the Bill. In addition, the Protection of Constitutional Democracy Against Terrorist and Related Activities (POCDATARA) Amendment Bill was assented to and signed by the President on 29 December 2022 and published in the Gazette. The Proclamation Notice to put the Bill into operation was published in the Gazette on 4 January 2023.

3. ACHIEVEMENT OF INSTITUTIONAL IMPACTS AND OUTCOMES

During the reporting period, the Department undertook a process to develop a theory of change (ToC) to underpin its five-year strategy and clarify how the planned outcomes and interventions are expected to lead to the envisaged five-year impact. The intention of the theory of change process was also to enable the Department to assess its strategy by identifying the original assumptions made when the strategy was designed, and assist in clearly mapping the change process towards expected outcomes. The outcome of the application of the ToC process also took into consideration the impact of the COVID-19 pandemic on the environment within which the CSPS operates. The ToC process was undertaken in line with DPME's revised framework on strategic and annual performance plans (RFSAPP) and other relevant guidelines.

The ToC process culminated into a revised impact statement “communities feel and are safe”, which is aligned to the revised 2019-2024 MTSF and the overall impact statement of the safety sector. The institutional outcome indicators were also revised as follows:

- Strengthened community police relations;
- Transformed and accountable police service;
- Strengthened community participation in the fight against crime;
- Strengthened collaboration, coordination and integration towards the implementation of the Integrated Crime and Violence Prevention Strategy;
- Strengthened relationship between SAPS and CSPA to ensure responsive policing; and
- CSPA as a centre of excellence for policing policies and strategies.

The CSPA's emergent TOC is being incrementally implemented in order to allow for full institutionalisation of the new approach by the entire organisation. It will also be reviewed and improved upon as key lessons are learnt through the implementation process.

Notwithstanding the above, there has been some progress made towards the achievement of the revised impact statement and outcomes as articulated in the revised Strategic Plan. The Department continues to be instrumental in facilitating community participation in safety by playing a supportive role in the establishment of CSFs and through the assessment of the functionality of CPFs, accompanied by recommendations for improvement. The Department also continues to provide training in order to equip CPF members to support policing and crime prevention initiatives at a local level, an exercise which is integral to the implementation of the Community Policing Policy and the Cabinet-approved ICVPS.

Efforts to strengthen community police relations have seen the Department also direct its focus towards the development of response plans as a mechanism for providing feedback on matters raised between communities and the Minister during dialogues / public participation programmes. The aim is to determine the status of implementation of those particular matters, and also serve as a barometer for the impact of the public participation interventions on the ground. Three response plans were developed during the reporting period, covering follow-ups made in KwaZulu-Natal, Western Cape and Gauteng.

At the beginning of the five-year period, the Department signed an MOU with Memeza Shout NGO, as part of the implementation of the Partnership Strategy and Framework. The work done in collaboration with Memeza has gained some traction; and during the reporting period, that collaboration led to the installation of rapid response alarms for the protection of school infrastructure in 21 schools located in Gauteng and KwaZulu-Natal respectively. Measures such as these are aimed at contributing to the improvement of safety in schools, in line with the school safety protocol.

During the reporting period, the Department also embarked on a joint project with Provincial Secretariats on the alignment of Provincial Safety Strategies with the 2016 WPSS and the ICVPS. The outcomes of this research product contributes to the outcome on strengthening collaboration, coordination, and integration towards the implementation of the ICVPS.

4. INSTITUTIONAL PROGRAMME PERFORMANCE INFORMATION

4.1. PROGRAMME 1: ADMINISTRATION

Programme Purpose: Provide strategic leadership, management and support services to the Department

Sub-Programmes:

- Corporate Services
- Financial Administration

Institutional Outcomes:

Programme 1 contributes to the following institutional outcome:

- CSPS as a centre of excellence for policing policies and strategies

Strategy to overcome areas of underperformance for Programme 1

Programme 1 achieved three (3) of its five (5) planned targets for the period under review. In terms of the underperformance on the HCS implementation plan, the Department will seek temporary resources to assist in finalising the outstanding activities that could not be achieved. With the payment of creditors within 30 days, the Department will work closely with the relevant service providers to ensure that potential breakdowns of the fibre-line are closely monitored.

Changes to planned targets

There were no changes to the planned targets for the reporting period.

The Department does not have a Capital Investment and Asset Management Plan. The process of procuring office accommodation was underway during the period under review.

PART C:

GOVERNANCE

1. INTRODUCTION

The Management of the CSPS is committed to the delivery of the departmental mandate, which is informed by Section 208 of the Constitution and the relevant legislative framework. In the execution of this mandate, the Department adheres to the principle of integrity, ethical values, and the rule of law, which forms the basis of the entire governance framework. This provides the taxpayer with assurance and confidence that the Department has good governance structures in place to effectively, efficiently, and economically utilise state resources.

2. RISK MANAGEMENT

2.1 Risk Management Policy and Strategy

In compliance with Section 38 of the PFMA, the Department has an approved Risk Management Policy and Strategy, which provide guidance on how to implement risk management effectively and efficiently within the Department. The Strategy outlines the plan of action on how to improve the departmental risk maturity level through a set of comprehensive activities highlighted in the Risk Management Implementation Plan. This plan has been critically engaged at an Executive Risk Management and Ethics Committee level and endorsed by the Acting Accounting Officer, as recommended by the Audit and Risk Committee (ARC). In the period under review, the Department successfully achieved all the activities as per the plan.

2.2 Risk Management Maturity

With a view to enhancing and improving the risk culture and risk maturity level as indicated in the Risk Management Strategy, the Department embarked on a Risk Maturity Self-Assessment during the reporting period, as prescribed by National Treasury. The assessment was done to identify areas of improvement which would enable the Department to clearly develop new ways to better implement risk management. The self-assessment placed the Department at level 3, which stipulates that the current risk management processes, practices, and systems fulfill the legislative requirements; however, these mechanisms have limited influence on the control environment. The assessment result has subsequently afforded the Department an opportunity to better position itself by finding new and creative ways of doing things, which will enable it to move to a higher risk maturity level.

2.3 Risk Assessment

In line with an approved Risk Management Implementation Plan, the Department has regularly assessed significant risks both at strategic and operational levels that could have an impact on the achievement of its outcomes, as articulated in the Strategic Plan. These risks were prioritised based on likelihood and impact (inherently and residually) and additional mitigations were agreed upon to reduce risks to acceptable levels. In the year under review, the Department identified ten (10) strategic risks and fifty-seven (57) operational risks. In addition, a fraud risk assessment was conducted with specific focus on financial administration processes, supply chain management processes and human resources management processes to minimise the impact of exposing the Department to any fraudulent activities which may be detrimental. The fraud risk assessment was concluded with twenty-one (21) fraud risks identified.

2.4 Progress in the Management of Risks

The management of all departmental risks at strategic, operational and fraud levels remains a fundamental priority in promoting effective governance and enhancing the risk management culture. The Department continued to monitor the progress of risks through the implementation of mitigation actions plans, and regular reporting to the Executive Risk Management and Ethics Committee and the ARC.

2.5 Audit and Risk Committee

The Department has a fully constituted and functional combined ARC, established in terms of the Public Finance Management Act, PFMA and National Treasury Regulations. The ARC is chaired by an independent chairperson and consists of three (3) non-executive members. The Executive Committee (EXCO) members and other Directors are standing invitees to the ARC meetings. The ARC plays a significant role in ensuring compliance with good corporate governance principles, aiding the Accounting Officer in the management of the CSPA's risks.

3. FRAUD AND CORRUPTION

3.1 CSPA Fraud Prevention Plan and the Progress Made in the Implementation Thereof

The Department has an approved Fraud Prevention Plan (FPP) which emphasises the promotion of ethics, combatting fraud and corruption, theft maladministration, and other acts of misconduct. To support and implement the FPP effectively, the Department embarked on a process to review and approve a Fraud Policy. In line with FPP, awareness workshops were conducted and internal controls were improved through the identification and assessment of fraud risks. In addition, the CSPA has ensured that all officials are accountable for the implementation of the FPP by outlining their roles and responsibilities in terms of the response strategies to fraud and corruption. The Department has a Gift and Hospitality Policy and a Remunerative Work Outside Public Service Policy in place which provide guidance in the monitoring of possible conflicts.

3.2 Mechanisms in Place to Report Fraud and Corruption and how these Operate

The Department has an approved Whistle-Blowing Policy which outlines the methods and procedures used to report activities of fraud and corruption. All reported fraud and corruption cases were investigated and referred to the relevant institutions and authorities depending on the outcome of the preliminary investigation. The Department continues to protect employees regarding confidential disclosures, in terms of the Protected Disclosure Act 26 of 2000. The Department supports the National Anti-Corruption Hotline by encouraging all employees to report any suspected activities of fraud and corruption through this platform.

3.3 Reporting of Cases and Action Taken

The Whistle-Blowing Policy outlines all internal and external fraud and corruption reporting mechanisms. All reported cases were registered and investigated with the outcomes of the investigation determining the actions taken to prevent, deter and detect activities of fraud and corruption.

4. MINIMISING CONFLICT OF INTEREST

The Department continued to put measures in place to mitigate conflict of interest for all key officials. During the period under review, the Department was required to submit financial disclosures for all Senior Management Services Members and all Assistant Directors including the newly appointed officials in selected categories to identify and assess any conflict of interest. During this period, the Department attained 100% compliance on the submission of financial disclosures. All Supply Chain Management (SCM) practitioners were required to sign the Code of Conduct for SCM Practitioners and the SCM Committees were required to sign a declaration of interest during committee meetings. In addition, all CSPA employees are required to obtain permission from the Accounting Officer to perform remunerative work outside of the public service. In instances where a conflict of interest is identified, disciplinary action is taken in accordance with the relevant prescripts.

5. CODE OF CONDUCT

The Code of Conduct in the Department is regulated and implemented in line with the Public Service Code of Conduct. Workshops are conducted from time to time in collaboration with the Ethics and Governance Unit. The Code of Conduct forms part of the discussion and presentation for the newly appointed employees during induction and orientation. All new SMS members are required to enrol for the National School of Government (NSG) induction programme and the SMS entry programme where the issues of Code of Conduct and Batho Pele Principles are taught and emphasised. The Code of Conduct, specifically for Open Spaces, was developed to enhance good behaviour in the Department, and was approved by the Secretary. Those who are found to have breached the Code of Conduct are investigated and the necessary disciplinary steps will be taken.

6. HEALTH SAFETY AND ENVIRONMENTAL ISSUES

During the period under review, the Department successfully completed its relocation to new office premises. This transition marked a milestone for the Department, as it aimed to enhance its operations in a better and improved physical environment. However, the process of relocation was not without its challenges, specifically with regards to Occupational Health and Safety (OHS), which is one of the four (4) pillars of the Employee Health and Wellness Strategy.

During the move a number of health hazards emerged, which posed a potential risk to the health and well-being of the Department's employees. Consequently, the OHS policy was developed and approved and the implementation of this Policy remains a priority for the Department. The Environmental Sustainability Strategy was also developed and is in the process of being implemented, to further implementation of the OHS Policy.

The OHS committee has been established and holds meetings on a quarterly basis. Members have been trained and are responsible to identify and report all hazards in the Department. Fire drills were arranged and conducted in collaboration with the City of Tshwane and all departments that reside in the building to equip employees with the skills needed to respond in the event of a fire. In addition, SHE bins were procured and installed in female ablution facilities during the reporting period.

The following Health, Safety and Environment programmes were undertaken by the Department in the period under review:

- The ICAS Employee Wellness Programme was launched in collaboration, supplemented by health screening programmes;
- Workshops were held focusing on workplace bullying, and awareness on breast and prostate cancer;
- A conference themed 'Public service women meeting week' was held, which focused on empowering women on health matters; and
- The Department also commemorated World AIDS day.

8. SCOPA RESOLUTIONS

The table below represents SCOPA resolutions specific to the Department, and details pertaining to the resolution made by the Department with regard to each resolution.

Resolution No.	Subject	Details	Response by the Department	Resolved (Yes/No)
NA	N/A	N/A	N/A	N/A

During the period under review, the Department did not appear before the Standing Committee on Public Accounts (SCOPA).

9. PRIOR MODIFICATIONS TO AUDIT REPORTS

The table below outlines mechanisms put in place by the Accounting Officer to resolve the matters reported by AGSA in the previous financial year.

Nature of qualification, disclaimer, adverse opinion and matters of non-compliance	Financial year in which it first arose	Progress made in clearing / resolving the matter
N/A	N/A	N/A

During the period under review, the Department received an unqualified audit with no findings (clean audit).

10. INTERNAL CONTROL UNIT

The Department has not established an Internal Control Unit, however, Line Management is responsible for the identification, design, management, and monitoring of the internal control environment to provide a cost-effective assurance of the financial wellness and financial management of the Department. The Internal Audit Unit evaluates the internal control environment for adequacy, appropriateness, efficiency, and effectiveness.

11. INTERNAL AUDIT AND AUDIT COMMITTEES

Key activities and objectives of the internal audit

The key Internal Audit activities include Planning, Fieldwork, Execution, and Reporting. The objectives of Internal Audit are to minimise risks, protect assets, ensure the accuracy and completeness of records, promote operational efficiencies, and encourage adherence to legislation, regulations, policies, and procedures. Internal Audit keeps stringent control over all the activities of the Department and provides reasonable assurance that the Department's risk management, governance, and internal control processes are operating as intended.

Summary of audit work conducted

During the period under review, the Internal Audit Activity completed 25 of the planned risk-based projects. The Internal Audit Activity reviews encompassed the following areas:

- Policy Development and Research processes;
- Civilian Oversight, Monitoring and Evaluation processes;
- Human Resource Development processes;
- Finance Management processes;
- Supply Chain Management processes;
- Review of the Annual and Interim Financial Statements;

- Asset management verification review;
- Review of Quarterly Performance Management Information;
- Review of the Annual Performance Plan;
- Mid-Term review of the Strategic Plan;
- Follow up on Internal and External Audit Findings; and
- Provision of Direct Assistance to the AGSA.

Key activities and objectives of the Audit Committee

The role of the Audit Committee is to support the Department in fulfilling its governance and oversight responsibilities in relation to financial reporting, internal control structures, risk management, internal and external audit functions including ethical accountability, and compliance with applicable legislation, laws and regulations. In addition, the Committee assists the Accounting Officer in executing his responsibilities to ensure that the Department's objectives are achieved.

The table below discloses relevant information on the Audit Committee members:

12. AUDIT COMMITTEE REPORT

We are pleased to present our report for the financial year ended 31 March 2023.

Audit Committee Responsibility

The Audit Committee reports that it has complied with its responsibilities arising from Section 38(1)(a)(ii) of the Public Finance Management Act No. 1 of 1999 (PFMA) and Treasury Regulation 3.1.13. The Audit Committee also reports that it has adopted appropriate formal terms of reference as its Audit Committee Charter, has regulated its affairs in compliance with this charter and has discharged all its responsibilities as contained therein.

The Audit Committee Charter is updated annually and complies with the requirements of the PFMA. The Audit Committee performs an oversight function covering the following:

- Financial Management;
- Performance Information Management;
- Information and Communications Technology (ICT) Governance;
- Risk Management;
- External Audit;
- Internal Audit; and
- Compliance with applicable Laws, Regulations and Ethics.

Independence of the Audit Committee

The Audit Committee is independent of management in the execution of its duties.

The Effectiveness of Internal Control and Risk Management

The Department has an established risk management process and high risks are regularly monitored. Our review of the findings of the Internal Audit work, which was based on the risk assessments conducted in the Department, revealed certain weaknesses, which were then raised with Management for corrective action where necessary.

Management is responsible for the system of internal controls. These are designed to provide Management with reasonable, but not absolute, assurance as to the reliability of the financial statements, to adequately safeguard, verify and maintain accountability of assets, and prevent and detect misstatements and losses.

Internal Audit

The Audit Committee is satisfied that the Internal Audit function is operating effectively and that it has addressed the risks pertinent to the Department in its audit reviews.

Internal Audit coverage for the year under review

The Committee approved the Risk-Based and Three-Year Rolling Audit plans, for the period under review, covering the following key audit activities:

- Policy Development and Research processes;
- Civilian Oversight, Monitoring and Evaluation processes;
- Human Resource Development processes;
- Finance Management processes;
- Supply Chain Management processes;
- Review of Annual and Interim Financial Statements;
- Asset Management verification;
- Review of Quarterly Performance Management Information;
- Review of the Annual Performance Plan;
- Mid-Term Review of the Strategic Plan;
- Follow up on Internal and External Audit Findings; and
- Provision of Direct Assistance to the AGSA.

Where the review of the findings of the Internal Audit work revealed certain weaknesses, these were raised with the Department and Management undertook corrective actions where necessary.

In-Year Management and Monthly and Quarterly Reports

Management has been reporting monthly and quarterly as required by the PFMA. Reports were reviewed and found to be of a good quality.

Annual Report

The Committee has reviewed the Annual Report per the legislative requirements.

Evaluation of Financial Statements and Annual Performance Report

We have reviewed the Annual Financial Statements and performance report prepared by the Department for the year ended 31 March 2023 and duly recommended them for the Accounting Officer's approval prior to being submitted to the AGSA for audit. There were no material misstatements identified through the audit process as reported by the AGSA in the management and audit reports, which were also discussed with the AGSA.

Auditor-General of South Africa's (AGSA) Report

We have reviewed the Department's implementation plan regarding audit issues raised in the previous year and are satisfied that the matters have been adequately resolved.

The Audit Committee concurs and accepts the conclusion of the AGSA on the Annual Financial Statements and Annual Performance Report and is of the opinion that the Audited Annual Financial Statements should be accepted and read together with the report of the AGSA.

Appreciation

The Audit Committee wishes to acknowledge the commitment and support of the Minister, AGSA, Acting Secretary, Management Team, and staff of the Civilian Secretariat for Police Service towards maintaining and retaining an unqualified audit opinion with no findings (clean audit).

Sedie Jane Masite, CIA, CFE, CACP, CMIIA
Chairperson of the Audit Committee
Civilian Secretariat for Police Service

PART D:

HUMAN RESOURCE MANAGEMENT

1. INTRODUCTION

1.1 The Status of Human Resources in the Department

The Department started the period under review with a post establishment of 156, which was subsequently increased to 157 posts in October 2022. As at the end of the period under review, the Department had filled 146 posts of its approved establishment of 157 funded posts. This resulted in a vacancy rate of 7%, remaining well below the acceptable threshold which has been set for the Public Service. Through the Integrated Human Capital Strategy and other related operational strategies, the Department was able to maintain its achievement of all employment equity targets, including ensuring that female representation at senior management level (and broadly in the staff complement) remained above 50%.

The Department also continues to ensure that at least 30% of its staff complement comprises young people (employees below the age of 35), and as at the end of the reporting period, there was a total of 53 young people employed in the Department. This figure consists of 28 females and 23 males, inclusive of 10 Work Integrated Learners (WILs).

1.2 Human Resource Priorities for the Year Under Review and the Impact of These

The human resource priorities for the year under review included the filling of critical vacant posts that impact on the capacity of the Department to deliver on its mandate, particularly in the core business units. The continued implementation of the Integrated Human Capital Strategy, through its five-year rolling implementation plan, also remained central to the advancement of the broader organisational strategy.

1.3 Workforce Planning and Key Strategies to Attract and Recruit a Skilled and Capable Workforce

The approved three-year HR Plan continues to inform workforce planning in the Department, through the identification of capacity gaps and forecasting of the skills and competencies that the Department will require to achieve its institutional outcomes. An integral component of the Integrated Human Capital Strategy is the implementation of the approved Recruitment, Selection and Retention Strategy, as well as the Recruitment and Retention Policy, the main purpose of which are to ensure the capacitation of the Department with the necessary critical and scarce skills to support the achievement of its strategic objectives.

To capacitate the Department to successfully execute its mandate, a proposed organisational structure with 34 prioritised posts has been developed and preliminarily consulted with the Department of Public Service and Administration (DPSA) for advice, guidance and alignment with relevant organisational design guidelines. The DPSA has provided pre-concurrence in this regard, and the proposed organisational structure is awaiting funding. Once all the necessary requirements have been met, the Department will develop an internal implementation plan for the proposed organisational structure for incremental implementation over the MTEF period.

1.4 Employee Performance Management

An effective performance management system plays a pivotal role in ensuring that the organisation achieves its strategic objectives and improves its organisational performance. Furthermore, it is also prudent to ensure that there is a link between the strategic plan of the Department and the operational plans of the various business units. There is currently a comprehensive performance management system in place which includes the signing of performance agreements at the beginning of each financial year, and assessments of performance at the end of the financial year. In the previous financial

years, the Department introduced the moderation of performance agreements to ensure that they are linked to the institutional outcomes as articulated in the Strategic Plan. The Department succeeded in the finalisation of all performance assessments for 2021/22 for all levels, including the Senior Management level.

1.5 Employee Wellness Programmes

The Department has a dedicated employee who is responsible for all matters related to employee health and wellness. The Department also introduced an Employee Assistance or Health Promotion Programme, which assists in the provision of reasonable accommodation in the form of assisting devices, psychosocial assessment, and referrals to external stakeholders, follow up services and after care services for employees who experience challenges.

The Department has also put measures in place to protect Human Immune Deficiency Virus (HIV)-positive employees or those perceived to be HIV-positive from discrimination by ensuring confidentiality of the information disclosed by employees. The Department has appointed a service provider to provide 24-hour health and wellness services to all employees and their immediate family members.

1.6 Achievements and Challenges Faced by the Department, as well as Future Human Resource Plans / Goals

The positive impact of an integrated approach to strategic human resource management in the Department has been evident through the attainment of consistently high levels of organisational performance over the past three years. Through this Strategy, the training and development of employees in key areas aligned to the mandate of the Department, has been prioritised. Significant strides have also been made to address and maintain gender parity and to maintain compliance with employment equity targets, as set by DPSA and the Department of Labour.

A critical challenge remains the filling of the position of the Secretary for Police Service, which is being addressed through the finalisation of the macro-organisational structure and continuous engagements with DPSA and National Treasury.

In terms of future plans, it is envisaged that the 34 posts on the proposed organisational structure will be filled in order to ensure the expansion of the capacity of the Department in relation to its revised organisational strategy and emergent theory of change.

2.2 Employment and Vacancies

The tables in this section summarise the position with regard to employment and vacancies. The following tables summarise the number of posts on the establishment, the number of employees, the vacancy rate, and whether there are any staff that are additional to the establishment.

This information is presented in terms of three key variables:

- Programme
- salary band
- critical occupations (see definition in notes below).

Departments have identified critical occupations that need to be monitored. In terms of current regulations, it is possible to create a post on the establishment that can be occupied by more than one employee. Therefore, the vacancy rate reflects the percentage of posts that are not filled.

Table - 2.2.1 Employment and vacancies by programme as on 31 March 2023

Programme	Number of posts on approved establishment	Number of posts filled	Vacancy Rate	Number of employees additional to the establishment
Administration	79	73	7.59%	17

2.4 Job Evaluation

Within a nationally determined framework, executing authorities may evaluate or re-evaluate any job in his or her organisation. In terms of the Regulations, all vacancies on salary levels nine (9) and higher must be evaluated before they are filled. The following table summarises the number of jobs that were evaluated during the year under review. The table also provides statistics on the number of posts that were upgraded or downgraded.

PART F:

FINANCIAL INFORMATION

1. REPORT OF THE AUDITOR GENERAL

Report of the Auditor-General to Parliament on Vote No. 21: Department of Civilian Secretariat for Police Service

Report on the audit of the financial statements

Opinion

1. I have audited the financial statements of the Department of Civilian Secretariat for Police Service set out on pages 91 to 146, which comprise the appropriation statement, statement of financial position as at 31 March 2023, statement of financial performance, statement of changes in net assets and cash flow statement for the year then ended, as well as notes to the financial statements, including a summary of significant accounting policies.
2. In my opinion, the financial statements present fairly, in all material respects, the financial position of the Department of Civilian Secretariat for Police Service as at 31 March 2023 and its financial performance and cash flows for the year then ended in accordance with Modified Cash Standard (MCS) and the requirements of the Public Finance Management Act of South Africa 1 of 1999 (PFMA).

Basis for opinion

3. I conducted my audit in accordance with the International Standards on Auditing (ISAs). My responsibilities under those standards are further described in the responsibilities of the auditor-general for the audit of the financial statements section of my report.
4. I am independent of the in accordance with the International Ethics Standards Board for Accountants' International code of ethics for professional accountants (including International Independence Standards) (IESBA code) as well as other ethical requirements that are relevant to my audit in South Africa. I have fulfilled my other ethical responsibilities in accordance with these requirements and the IESBA code.
5. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Other matters

6. I draw attention to the matters below. My opinion is not modified in respect of these matters.

Unaudited supplementary schedules

7. The supplementary information set out on pages 147 to 155 does not form part of the financial statements and is presented as additional information. I have not audited these schedules and, accordingly, I do not express an opinion on them.

Unauthorised, irregular expenditure and fruitless and wasteful expenditure (UIFW expenditure)

8. On 23 December 2022 National Treasury issued Instruction Note No. 4: PFMA Compliance and Reporting Framework of 2022-23 in terms of section 76(1)(b), (e) and (f), 2(e) and (4)(a) and (c) of the PFMA, which came into effect on 3 January 2023. The PFMA Compliance and Reporting Framework also addresses the disclosure of unauthorised expenditure, irregular expenditure and fruitless and wasteful expenditure. Among the effects of this framework is that irregular and fruitless and wasteful expenditure incurred in previous financial years and not addressed is no longer disclosed in the disclosure notes of the annual financial statements, only the current year and prior year figures are disclosed in note 23 to the financial statements. The movements in respect of irregular expenditure and fruitless and wasteful expenditure are no longer disclosed in the notes to the annual financial statements of the department. The disclosure of these movements (e.g. condoned, recoverable, removed, written off, under assessment, under determination and under investigation) are now required to be included as part of other information in the annual report of the auditees.

9. I do not express an opinion on the disclosure of irregular expenditure and fruitless and wasteful expenditure in the annual report.

Responsibilities of the accounting officer for the financial statements

10. The accounting officer is responsible for the preparation and fair presentation of the financial statements in accordance with the MCS and the requirements of the PFMA and for such internal control as the accounting officer determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.
11. In preparing the financial statements, the accounting officer is responsible for assessing the department's ability to continue as a going concern; disclosing, as applicable, matters relating to going concern; and using the going concern basis of accounting unless the appropriate governance structure either intends to liquidate the department or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the auditor-general for the audit of the financial statements

12. My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.
13. A further description of my responsibilities for the audit of the financial statements is included in the annexure to this auditor's report.

Report on the Annual Performance Report

14. In accordance with the Public Audit Act 25 of 2004 (PAA) and the general notice issued in terms thereof, I must audit and report on the usefulness and reliability of the reported performance information against predetermined objectives for the selected material performance indicators presented in the annual performance report. The accounting officer is responsible for the preparation of the annual performance report.
15. I selected the following material performance indicators related to programmes presented in the annual performance report for the year ended 31 March 2023. I selected those indicators that measure the department's performance on its primary mandated functions and that are of significant national, community or public interest.

Programme	Page numbers	Purpose
Programme two: Inter-Sectoral Coordination and Strategic Partnerships	28-31	To manage and encourage national dialogue on community safety and crime prevention
Programme three: Legislation and Policy Development	32-33	Develop policy and legislation for the police sector and conduct research on policing and crime
Programme four: Civilian Oversight, Monitoring and Evaluation	34-36	Oversee, monitor and report on the performance of the South African Police Service

16. I evaluated the reported performance information for the selected material performance indicators against the criteria developed from the performance management and reporting framework, as defined in the general notice. When an annual performance report is prepared using these criteria, it provides useful and reliable information and insights to users on the department's planning and delivery on its mandate and objectives.
17. I performed procedures to test whether:
 - the indicators used for planning and reporting on performance can be linked directly to the department's mandate and the achievement of its planned objectives
 - the indicators are well defined and verifiable to ensure that they are easy to understand and apply consistently and that I can confirm the methods and processes to be used for measuring achievements
 - the targets linked directly to the achievement of the indicators and are specific, time bound and measurable to ensure that it is easy to understand what should be delivered and by when, the required level of performance as well as how performance will be evaluated
 - the indicators and targets reported on in the annual performance report are the same as what was committed to in the approved initial or revised planning documents
 - the reported performance information is presented in the annual performance report in the prescribed manner
 - there is adequate supporting evidence for the achievements reported and for the reasons provided for any over- or underachievement of targets.
18. I performed the procedures for the purpose of reporting material findings only.
19. I did not identify any material findings on the reported performance information for the selected material performance indicators.

Other matter

20. I draw attention to the matter below.

Achievement of planned targets

21. The annual performance report includes information on reported achievements against planned targets and provides explanations for over- and under-achievements.

Report on compliance with legislation

22. In accordance with the PAA and the general notice issued in terms thereof, I must audit and report on compliance with applicable legislation relating to financial matters, financial management and other related matters. The accounting officer is responsible for the department's compliance with legislation.
23. I performed procedures to test compliance with selected requirements in key legislation in accordance with the findings engagement methodology of the Auditor-General of South Africa (AGSA). This engagement is not an assurance engagement. Accordingly, I do not express an assurance opinion or conclusion.
24. Through an established AGSA process, I selected requirements in key legislation for compliance testing that are relevant to the financial and performance management of the Department of Civilian Secretariat for Police Service, clear to allow consistent measurement and evaluation, while also sufficiently detailed and readily available to report in an understandable manner. The selected legislative requirements are included in the annexure to this auditor's report.
25. I did not identify any material non-compliance with the selected legislative requirements.

Other information in the annual report

26. The Department of Civilian Secretariat for Police Service is responsible for the other information included in the annual report, which includes the general information, governance, the audit committee's report and the accounting officer's report. The other information referred to does not include the financial statements, the auditor's report and those selected material indicators in the scoped-in programmes presented in the annual performance report that have been specifically reported on in this auditor's report.
27. My opinion on the financial statements, the report on the audit of the annual performance report and the report on compliance with legislation do not cover the other information included in the annual report and I do not express an audit opinion or any form of assurance conclusion on it.
28. My responsibility is to read this other information and, in doing so, consider whether it is materially inconsistent with the financial statements and the selected material indicators in the scoped-in programmes presented in the annual performance report, or my knowledge obtained in the audit, or otherwise appears to be materially misstated.
29. The other information I obtained prior to the date of this auditor's report are Part D: Human Resource Management Report and Part E: PFMA Compliance Report, and Part A: General information and Part C: Governance are expected to be made available to us after 31 July 2023.
30. If, based on the work I have performed on the other information that I obtained prior to the date of this auditor's report, I conclude that there is a material misstatement of this other information, I am required to report that fact. We have nothing to report in this regard.
31. When I do receive and read the Part A: General information and Part C: Governance, if I conclude that there is a material misstatement therein, I am required to communicate the matter to those charged with governance and request that the other information be corrected. If the other information is not corrected, I may have to retract this auditor's report and re-issue an amended report as appropriate. However, if it is corrected, this will not be necessary.

Internal control deficiencies

32. I considered internal control relevant to my audit of the financial statements, annual performance report and compliance with applicable legislation; however, my objective was not to express any form of assurance on it.
33. I did not identify any significant deficiencies in internal control.

AUDITOR - GENERAL
SOUTH AFRICA

Auditor General

Pretoria
27 July 2023

ANNEXURE TO THE AUDITOR'S REPORT

The annexure includes the following:

- the auditor-general's responsibility for the audit
- the selected legislative requirements for compliance testing.

Auditor-general's responsibility for the audit

Professional judgement and professional scepticism

As part of an audit in accordance with the ISAs, I exercise professional judgement and maintain professional scepticism throughout my audit of the financial statements and the procedures performed on reported performance information for selected material performance indicators and on the department's compliance with selected requirements in key legislation.

Financial statements

In addition to my responsibility for the audit of the financial statements as described in this auditor's report, I also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error; design and perform audit procedures responsive to those risks; and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the department's internal control
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made.
- conclude on the appropriateness of the use of the going concern basis of accounting in the preparation of the financial statements. I also conclude, based on the audit evidence obtained, whether a material uncertainty exists relating to events or conditions that may cast significant doubt on the ability of the department to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements about the material uncertainty or, if such disclosures are inadequate, to modify my opinion on the financial statements. My conclusions are based on the information available to me at the date of this auditor's report. However, future events or conditions may cause a to cease operating as a going concern.
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and determine whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the group to express an opinion on the consolidated financial statements. I am responsible for the direction, supervision and performance of the group audit. I remain solely responsible for my audit opinion.

Communication with those charged with governance

I communicate with the accounting officer regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide the accounting officer other with a statement that I have complied with relevant ethical requirements regarding independence and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence and, where applicable, actions taken to eliminate threats or safeguards applied.

NOTES TO THE ANNUAL FINANCIAL STATEMENTS

for the year ended 31 March 2023

PART A: ACCOUNTING POLICIES

Summary of significant accounting policies

The financial statements have been prepared in accordance with the following policies, which have been applied consistently in all material aspects, unless otherwise indicated. Management has concluded that the financial statements present fairly the department's primary and secondary information.

The historical cost convention has been used, except where otherwise indicated. Management has used assessments and estimates in preparing the annual financial statements. These are based on the best information available at the time of preparation.

Where appropriate and meaningful, additional information has been disclosed to enhance the usefulness of the financial statements and to comply with the statutory requirements of the Public Finance Management Act (PFMA), Act 1 of 1999 (as amended by Act 29 of 1999), and the Treasury Regulations issued in terms of the PFMA and the annual Division of Revenue Act.

1.	Basis of preparation The financial statements have been prepared in accordance with the Modified Cash Standard.
2.	Going concern The financial statements have been prepared on a going-concern basis.
3.	Presentation currency Amounts have been presented in the currency of the South African Rand (R) which is also the functional currency of the department.
4.	Rounding Unless otherwise stated financial figures have been rounded to the nearest one thousand Rand (R'000).
5.	Foreign currency translation Cash flows arising from foreign currency transactions are translated into South African Rands using the spot exchange rates prevailing at the date of payment/receipt.
6.	Comparative information
6.1	Prior period comparative information Prior period comparative information has been presented in the current year's financial statements. Where necessary figures included in the prior period financial statements have been reclassified to ensure that the format in which the information is presented is consistent with the format of the current year's financial statements.
6.2	Current year comparison with budget A comparison between the approved, final budget and actual amounts for each programme and economic classification is included in the appropriation statement.
7.	Revenue
7.1	Appropriated funds Appropriated funds comprise of departmental allocations as well as direct charges against the revenue fund (i.e. statutory appropriation). Appropriated funds are recognised in the statement of financial performance on the date the appropriation becomes effective. Adjustments made in terms of the adjustments budget process are recognised in the statement of financial performance on the date the adjustments become effective. Appropriated funds are measured at the amounts receivable. The net amount of any appropriated funds due to/from the relevant revenue fund at the reporting date is recognised as a payable / receivable in the statement of financial position.

NOTES TO THE ANNUAL FINANCIAL STATEMENTS

for the year ended 31 March 2023

11.	Loans and receivables Loans and receivables are recognised in the statement of financial position at cost plus accrued interest, where interest is charged, less amounts already settled or written-off. Write-offs are made according to the department's write-off policy.
12.	Financial assets
12.1	Financial assets (not covered elsewhere) A financial asset is recognised initially at its cost plus transaction costs that are directly attributable to the acquisition or issue of the financial asset. At the reporting date, a department shall measure its financial assets at cost, less amounts already settled or written-off, except for recognised loans and receivables, which are measured at cost plus accrued interest, where interest is charged, less amounts already settled or written-off.
12.2	Impairment of financial assets Where there is an indication of impairment of a financial asset, an estimation of the reduction in the recorded carrying value, to reflect the best estimate of the amount of the future economic benefits expected to be received from that asset, is recorded in the notes to the financial statements.
13.	Payables Payables recognised in the statement of financial position are recognised at cost.
14	Capital Assets
14.1	Immovable capital assets Immovable assets reflected in the asset register of the department are recorded in the notes to the financial statements at cost or fair value where the cost cannot be determined reliably. Immovable assets acquired in a non-exchange transaction are recorded at fair value at the date of acquisition. Immovable assets are subsequently carried in the asset register at cost and are not currently subject to depreciation or impairment. Subsequent expenditure of a capital nature forms part of the cost of the existing asset when ready for use. Additional information on immovable assets not reflected in the assets register is provided in the notes to financial statements.
14.2	Movable capital assets Movable capital assets are initially recorded in the notes to the financial statements at cost. Movable capital assets acquired through a non-exchange transaction is measured at fair value as at the date of acquisition. Where the cost of movable capital assets cannot be determined reliably, the movable capital assets are measured at fair value and where fair value cannot be determined; the movable assets are measured at R1. All assets acquired prior to 1 April 2002 (or a later date as approved by the OAG) may be recorded at R1. Movable capital assets are subsequently carried at cost and are not subject to depreciation or impairment. Subsequent expenditure that is of a capital nature forms part of the cost of the existing asset when ready for use.
14.3	Intangible assets Intangible assets are initially recorded in the notes to the financial statements at cost. Intangible assets acquired through a non-exchange transaction are measured at fair value as at the date of acquisition. Internally generated intangible assets are recorded in the notes to the financial statements when the department commences the development phase of the project. Where the cost of intangible assets cannot be determined reliably, the intangible capital assets are measured at fair value and where fair value cannot be determined; the intangible assets are measured at R1. All assets acquired prior to 1 April 2002 (or a later date as approved by the OAG) may be recorded at R1. Intangible assets are subsequently carried at cost and are not subject to depreciation or impairment. Subsequent expenditure of a capital nature forms part of the cost of the existing asset when ready for use.
14.4	Project Costs: Work-in-progress Expenditure of a capital nature is initially recognised in the statement of financial performance at cost when paid. Amounts paid towards capital projects are separated from the amounts recognised and accumulated in work-in-progress until the underlying asset is ready for use. Once ready for use, the total accumulated payments are recorded in an asset register. Subsequent payments to complete the project are added to the capital asset in the asset register. Where the department is not the custodian of the completed project asset, the asset is transferred to the custodian subsequent to completion.
15	Provisions and Contingents
15.1	Provisions Provisions are recorded in the notes to the financial statements when there is a present legal or constructive obligation to forfeit economic benefits as a result of events in the past and it is probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation and a reliable estimate of the obligation can be made. The provision is measured as the best estimate of the funds required to settle the present obligation at the reporting date.

NOTES TO THE ANNUAL FINANCIAL STATEMENTS

for the year ended 31 March 2023

15.2	Contingent liabilities Contingent liabilities are recorded in the notes to the financial statements when there is a possible obligation that arises from past events, and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not within the control of the department or when there is a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation or the amount of the obligation cannot be measured reliably.
15.3	Contingent assets Contingent assets are recorded in the notes to the financial statements when a possible asset arises from past events, and whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events not within the control of the department.
15.4	Capital commitments Capital commitments are recorded at cost in the notes to the financial statements.
16.	Unauthorised expenditure Unauthorised expenditure is recognised in the statement of changes in net assets until such time as the expenditure is either: <ul style="list-style-type: none"> • approved by Parliament or the Provincial Legislature with funding and the related funds are received; or • approved by Parliament or the Provincial Legislature without funding and is written off against the appropriation in the statement of financial performance; or • transferred to receivables for recovery. Unauthorised expenditure is measured at the amount of the confirmed unauthorised expenditure.
17.	Fruitless and wasteful expenditure Fruitless and wasteful expenditure receivables are recorded in the statement of financial position, measured at the amount that is expected to be recoverable and are de-recognised when settled or subsequently written-off as irrecoverable.
18.	Irregular expenditure Irregular expenditure receivables are recorded in the statement of financial position, measured at the amount that is expected to be recoverable and are de-recognised when settled or subsequently written-off as irrecoverable.
19.	Changes in accounting estimates and errors Changes in accounting estimates are applied prospectively in accordance with MCS requirements. Correction of errors is applied retrospectively in the period in which the error has occurred in accordance with MCS requirements, except to the extent that it is impracticable to determine the period-specific effects or the cumulative effect of the error. In such cases the department shall restate the opening balances of assets, liabilities and net assets for the earliest period for which retrospective restatement is practicable.
20.	Events after the reporting date Events after the reporting date that are classified as adjusting events have been accounted for in the financial statements. The events after the reporting date that are classified as non-adjusting events after the reporting date have been disclosed in the notes to the financial statements.
21.	Departures from the MCS requirements Management has concluded that the financial statements present fairly the department's primary and secondary information; that the department complied with the Standard except that it has departed from a particular requirement to achieve fair presentation; and the requirement from which the department has departed, the nature of the departure and the reason for departure.
22.	Recoverable revenue Amounts are recognised as recoverable revenue when a payment made in a previous financial year becomes recoverable from a debtor in the current financial year. Amounts are either transferred to the National/Provincial Revenue Fund when recovered or are transferred to the statement of financial performance when written-off.
23.	Related party transactions Related party transactions within the Minister/MEC's portfolio are recorded in the notes to the financial statements when the transaction is not at arm's length. The number of individuals and the full compensation of key management personnel is recorded in the notes to the financial statements.
24.	Employee benefits The value of each major class of employee benefit obligation (accruals, payables not recognised and provisions) is disclosed in the Employee benefits note. The provision for employee benefits is measured as the best estimate of the funds required to settle the present obligation at the reporting date.
